

## OBJECTIVE

This policy aims to prevent bullying behaviour, and enable the College to respond to bullying in an effective manner that promotes pro-social behaviour between students, by focusing on the College values of Respect, Cooperation, and Independence.

## OUTCOMES

1. Teachers, students and parents are aware of the College's processes for preventing and responding to bullying.
2. Students who display bullying behaviour or experience bullying behaviour feel supported.
3. Students have strategies to improve resilience and increase pro-social behavior.

## RATIONALE:

All members of our College community are committed to ensuring a safe and supportive environment where all members have the right to be respected and have a responsibility to respect each other. A whole of community approach is required to prevent and address bullying.

Bullying is an ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm. It can involve an individual or a group misusing their power over one or more persons who feel unable to stop it from happening.

Bullying can happen in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records).

Single incidents and conflict or fights between peers, whether in person or online, are not defined as bullying.

Bullying involves:

- Verbal bullying: The repeated use of words to hurt or humiliate another individual or group. Verbal bullying includes using put-downs, name-calling, insulting someone about the way they look or behave, spreading rumours, and homophobic, racist or sexist comments.
- Emotional/Psychological Bullying: Includes repeated stalking, threats or implied threats, unwanted email or text messaging, abusive websites, threatening gestures, manipulation, emotional blackmail, and threats to an individual's reputation and sense of safety.
- Social/Relational Bullying: Involves repeatedly ostracising others by ignoring someone or keeping them out of conversations, convincing others to dislike or exclude an individual or group, spreading rumours, and sharing information or images that will have a harmful effect on the other person.
- Physical Bullying: Includes violent actions towards another person that involves hitting, pinching, biting, pushing, pulling, shoving, damaging or stealing someone's belongings, and unwanted touching.
- Cyber Bullying: Involves the use of technology to bully a person or group with the intent to hurt them socially, psychologically or even physically. Cyberbullying includes abusive texts and emails, hurtful messages, images or videos, imitating, excluding or humiliating others online, online gossip and chat.
- Bystanders: Bystanders are those who are aware of, or witnesses to, the bullying situation. An unhelpful bystander(s) is an individual or group of people who choose to promote, support or encourage bullying behaviours rather than intervening or seeking support. A supportive bystander (upstander) will use words and/or actions to support someone who is being bullied by intervening, getting teacher

support or comforting them. All members of a school community need to know how to support those who are being bullied and how to discourage bullying behaviours.

Behaviours that **do not** constitute bullying include:

- Mutual arguments and disagreements (where there is no power imbalance)
- Not liking someone or a single act of social rejection
- One-off acts of unkindness, meanness or spite
- Isolated incidents of aggression, intimidation or violence

However, these conflicts will still be addressed and resolved.

## **PREVENTION STRATEGIES:**

Ashdale Secondary College provides our students and parent community with a number of programs, initiatives and engagement opportunities designed to foster positive relationships, including:

**Curriculum** – Students engage in relevant curriculum within and outside of the health program, including Cyber Safety curriculum, Social Emotional Learning for targeted groups, and Respectful Relationships curriculum.

**Anti-Bullying Campaign Bullying No Way!** – Bullying No Way! Is a government run organisation that supports schools in educating students through evidence-based research. As a College we use the resources to take a proactive approach to bullying education and prevention.

**House System** – All students and staff are aligned to one of our four College Houses (Curi, Gallileo, Tesla and Newton), designed to increase a sense of community, connection and belonging. Achievement and demonstration of College values are recognised at the yearly House Awards Ceremony.

**Orientation and Targeted Transition Support** – All year 7 students, and new to the College students in other year groups, participate in a structured transition and orientation program, including the outlining of college values and expectations for conduct at the College.

**Co-Design** – Student and community voice is regularly sought through various forums such as Student Leadership Group, Mentor Captains Program, Student Voice Forums, and regular Community Culture Surveys. These platforms provide the opportunity for students and the wider community to provide essential input into the continuing improvement of the College.

**Guest Speakers and Presentations** – All students have the opportunity to attend a range of guest speakers and presentations addressing safe social media usage and legal education talks (Surf Online Safe, Youthlaw).

**Parent Information and Engagement Events** – Parents are invited to regularly held information sessions such as Surf Online Safe, a suite of Teen Positive Parenting Program presentations, and Year 7 Transition evenings.

**Reward and Engagement Activities** – Student achievement, attendance, and pro-social behaviour are regularly acknowledged and rewarded with a variety of reward incursions, excursions, individual prizes, and fun events (lunchtime concerts, games, activities, BBQ's) run throughout the school term.

# Preventing and Managing Bullying Policy – PROCEDURES FOR RESPONDING TO INCIDENTS

## STAGE 1: STUDENTS

- Share feelings & concerns with others, including teachers
- Be supportive of each other. No-one deserves to be bullied
- Initially try to ignore the behaviour. If the bully has no response and is not encouraged then s/he may stop
- **Remember though, if this does not work then:**
  - Seek help. Find an adult you trust and ask for their help. They will be able to get help or give strategies to help respond and cope
  - Do not retaliate as this is rarely effective and often escalates the situation
  - Seek support from class teacher, HoLA, Year Coordinator, Student Services or the College administration

## PARENTS

- Awareness that negative behaviour and social conflict is not necessarily bullying
- Reassure the child being bullied that the fault does not lie with them
- Support the child by listening, not interrogating
- Year Co-ordinator can support with understanding of bullying and ways to confront the issue
- Need to be careful not to ignore or give the impression that the issue is unimportant
- Support child to follow procedures and seek support from teacher, HoLA, Year Coordinator, Students Services or the College administration

Depending on the range of seriousness:

- Meeting with parent and student to implement Class Behaviour Contract

Refer to Stage 3 – HOLA support as required
